

ALLIES PLAN NEW MOVE TO GET EX-KAISER AFTER REFUSAL BY HOLLAND

Premiers of Great Britain, France and Italy Will Have Conference—One of the Premiers Is Not Averse to Calling Upon Germany to Produce Hohenzollern.

FRENCH OFFICIAL—DOM IS AGAINST SUCH A MOVE

There Is Much Doubt in Paris Whether Germany Would Herself Surrender the Former Emperor if She Should Get Him Away from Holland.

Paris, Jan. 24.—Conference between premiers of Great Britain, France and Italy will be held before the next move in the proceedings to extradite former Emperor William from Holland is decided upon, according to information given the Associated Press by the French foreign office. Whether the next demand for the surrender of the erstwhile kaiser will be directed to The Hague or Berlin, will be the main subject to be determined by the three governments.

The next meeting of the premiers of the three countries will be held in London, but as not date for this meeting has been fixed and the matter cannot be left pending a long time, the foreign office expressed the opinion that the question might eventually be settled through diplomatic channels between Rome, Paris and London.

It is understood that at least one premier is not averse to asking Berlin to call for the return of Count Hohenzollern to Germany and then demand the kaiser to deliver him over to the allies in accordance with the provisions of article 228 of the treaty of Versailles.

Holland, in refusing to accede to the demand of the allies for the extradition of former Emperor William of Germany, recognizes no duties but those imposed by her laws and the tradition that her soil is sanctuary for the vanquished in international conflicts. This, in effect, is the reply to the Netherlands government to the powers which would place the erstwhile kaiser on trial for a "supreme offense against international morality and the sanctity of treaties."

Having had no part in the framing of the treaty of Versailles, Holland holds she is not bound by its provisions of that pact, and does not consider herself obligated by them. For this reason she refuses the implication that international duties which may arise out of the treaty are applicable to her. The reply states that if in future the society of nations should establish an international tribunal competent to try, in case of war, deeds which were placed in the category of crimes by statute ante-dating the acts committed, Holland will participate in its deliberations. As the crime charged against Count Hohenzollern is not based on any such statute, little encouragement was given the powers by this phase of the Dutch reply.

While the Dutch government is positive in its refusal to acquiesce in the desire of the allied powers, the language employed in the note sent to The Hague on Jan. 15 seemed to reflect determination on the part of the allies to secure the custody of Count Hohenzollern. Holland was told it was the powers' duty to bring the former emperor to trial, and that the powers would be stopped by argument and the note concluded by an assertion that it is to the best interests of the Dutch people not to appear to protect the principal author of this catastrophe. The intimations the powers sought to convey by these elements of their note have not been divulged.

Sentiment in official circles here is against demanding that Germany seek the return of the former emperor. It is doubtful whether Germany would acquiesce and make representations to Holland and it is also problematic whether she would deliver the erstwhile sovereign in the event she should obtain possession of him. It is also feared the presence of Count Hohenzollern in Germany would solidify the monarchist party, which is reported to be gaining strength daily.

FORMER EMPEROR WAS NOT SURPRISED

Refusal of Extradition Had Been Expected, But No Intimation That Effect Had Been Received.

Amerongen, Friday, Jan. 23.—Former Emperor William of Germany was not surprised by the formal refusal of the Dutch government to comply with the allied demand for his surrender, it was declared today at Bentinck castle, where the ex-ruler makes his home. News of the decision was first communicated to the castle by the Associated Press correspondent here.

was told but the castle's residents had never been officially informed that such a decision had been or would be reached.

FRENCH PRESS NOT EXCITED. Over Refusal of Holland to Surrender Former Emperor.

Paris, Jan. 24.—Although already discounted, the refusal of Holland to surrender former Emperor William of Germany to the allies has been given a mixed reception by the newspapers here. Writing in the Echo de Paris, "Pertinax" says he regards the "punishment of Count Hohenzollern as a question of sentiment."

"All things considered," he continues, "the only thing remaining for us to do is to come to an understanding with Holland under the conditions surrounding the internment of the former emperor, in which some provision for allied surveillance might be made."

Gustav Herve, editor of La Victoire, thinks, on the whole, it would be better "for the kaiser to stop where he is."

The Petit Parisien goes to the other extreme and says: "The right of asylum is only entitled to respect if the person sheltered is himself worthy of respect, and such is not the case here. Honor cannot be involved if it favors one who has forfeited honor. Holland, sheltering behind legal technicalities, avoids the question of guilt, which is no longer in doubt throughout the world."

OLD SWINDLE REVIVED. On Pictitious Claims for Land in Manhattan.

New York, Jan. 24.—Search for swindlers of the past years has revealed thousands of persons throughout the country that they have inherited most of the land in New York's financial district was begun today by the police.

In a revival of a swindle which netted its promoters nearly one million dollars a few years ago, letters have been circulated advising the recipients that they are heirs of Anneke Jans, and that her estate consisting of the sites of the Woolworth building, Trinity church and most of Wall street is to be divided soon. A contribution for the state expenses of levels and money valued at millions belonging to the estate have just been discovered in a vault in this city, the letter says. As proof there are enclosed what appears to be newspaper clippings. The swindlers' prospects are advised that the state is responsible for the benefits that are shortly to accrue to them as it desires to collect the heavy inheritance tax which each heir must pay and has intervened in the century-old litigation over the estate. The police and the district attorney have received hundreds of letters claiming just when the estate was to be divided.

Anneke Jans was a real old Knickerbocker and she left all her property to Trinity church. Litigation over the estate dated years ago, but at least 500,000 persons have claimed to be her heirs since then, it is estimated at the district attorney's office.

WAR AND H. C. OF L. KEPT DOWN BIRTHRATE

New York State Was Reduced 36,000 Last Year, But Death Rate Was Very Low.

New York, Jan. 24.—New York state's normal birthrate has been reduced by 36,000 since Jan. 1, 1918, because of the war and the resultant high cost of living, according to a statement issued today by the state health department.

The extreme low mark, Dr. Biggs said, was reached in July, 1919, when births dropped to 187 per 1,000 of population. This is the lowest figure in the state's history. The rate for the first eight months of 1919 was 20.2, which is 11 per cent lower than the rate for the corresponding months in 1918, and 16 per cent lower than the average for the preceding five years.

Dr. Biggs found solace in the fact that the death rate for the same period was the lowest in many years.

JOHNSON-BORAH BREAK ALARMS

Causes Republican Senators To Meet in an Informal Conference on Treaty

LODGE CANCELS BI-PARTY PARLEY

Latter Is Expected to Be Resumed in Washington Next Week

Washington, D. C., Jan. 24.—Republican senators met in informal conference today to consider procedure with the peace treaty in view of the protests against further compromise made yesterday by the eight Republicans headed by Senators Johnson of California and Borah of Idaho.

In order that the Republican conference might proceed freely, Senator Lodge, the Republican leader, cancelled the meeting planned with the Democratic committee, headed by Senator Hitchcock, to discuss compromise reservations. Mr. Lodge called a number of Republicans, including those of the "mild reservation" group, to his office to consider the situation presented by the threatened defection of the Johnson-Borah group.

No announcement was made by Senator Lodge regarding renewal of the compromise negotiations with the Democratic leaders, but it was believed that the Republican committee on compromise would meet again early next week with the Democrats. There were indications that the cancellation of today's bipartisan conference was merely to give Senator Lodge time to consult with the rank and file of Republican senators.

FOUND CRUSHED TO DEATH. Gordon Emerson's Body Dug Out of Talc Mine in Johnson.

Johnson, Jan. 24.—The body of Gordon Emerson was taken at 3 o'clock yesterday morning from the cave-in at the talc mine of the American Mineral company after 12 men had worked like mad ever since Wednesday afternoon to extricate the entombed miner.

The cave-in of hundreds of tons of rock occurred at 4 o'clock on Wednesday afternoon and Emerson must have been instantly killed, as his body was almost cut in two. He never knew what struck him. His head was badly crushed.

Shift of 12 men had labored incessantly removing the big rocks, which had to be lifted 12 feet to get them away from the head of the mine. It was a terrific job to clear a way in the mine tunnel, but there was a small chance that the man might not have been killed.

At the time of the cave-in Emerson was working at the head of the mine and two other men were not far away. These men saw signs of what was impending and jumped to safety.

The body of Emerson was discovered at 11 o'clock Thursday night, but it was not until 3 o'clock that it could be extricated.

He would shoot him if he entered the living room. The boy, fearing trouble, immediately started for the police, leaving in the house Harry Chaffee, a cousin, who had just arrived from Hardwick on a visit. Chaffee went into the living room and saw his wife in the living room and the boy heard Symes say to her, "Now go," after which he heard a shot. When he entered the room the woman was dead and Symes had gone.

Symes went to another part of the town. It was ascertained later, to find his sister and told the lady of the house that he had killed his wife. After some conversation he went out of the room and shot himself through the head.
